

NOTICE: ANNOUNCEMENT OF AVAILABILITY OF DRAFT PERMIT

PERMIT NO.: WA0040479

APPLICANT: Town of South Prairie
P.O. Box F
South Prairie, WA 98385

FACILITY: Town South Prairie Wastewater Treatment Plant
306 South Prairie Carbon River Road
South Prairie, WA

The Town of South Prairie has applied for a National Pollutant Discharge Elimination System (NPDES) permit in accordance with the provisions of Chapter 90.48 Revised Code of Washington (RCW), Chapter 173-220 Washington Administrative Code (WAC), and the Federal Clean Water Act.

The City of South Prairie presently owns or operates a Septic Tank Effluent Pump (STEP)/Recirculating Gravel Filter with UV Disinfection wastewater treatment plant which is designed to handle an average/maximum daily flow of 28,680 gallons per day. The wastewater, following treatment, must meet the requirements of the Washington State Water Pollution Control Act and applicable regulations for a permit to be issued.

Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of treated municipal wastewater from the Town of South Prairie to South Prairie Creek.

A tentative determination has been made to reauthorize this permit based on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.
